Steps to Create a Presentation

1. Plan your content

▫ Ask yourself:

- What is the purpose of your presentation?
- What message do you want to deliver?

▫ Write up the outline with all the necessary topics

Steps to Create a Presentation

2. Add details to all topics

- Add important details to all topics.
- Remove any unnecessary details
- Too much graphic/details can be distracting
- One topic per slide.

Steps to Create a Presentation

3. Support the headline with graphic evidence

- support your points with graphic evidence.
- This can include photos, images, charts and diagrams.

Steps to Create a Presentation

4. Fine Tuning

- Fonts
- Transition
- Animation
