  - Outline page (a page of outline to be presented)
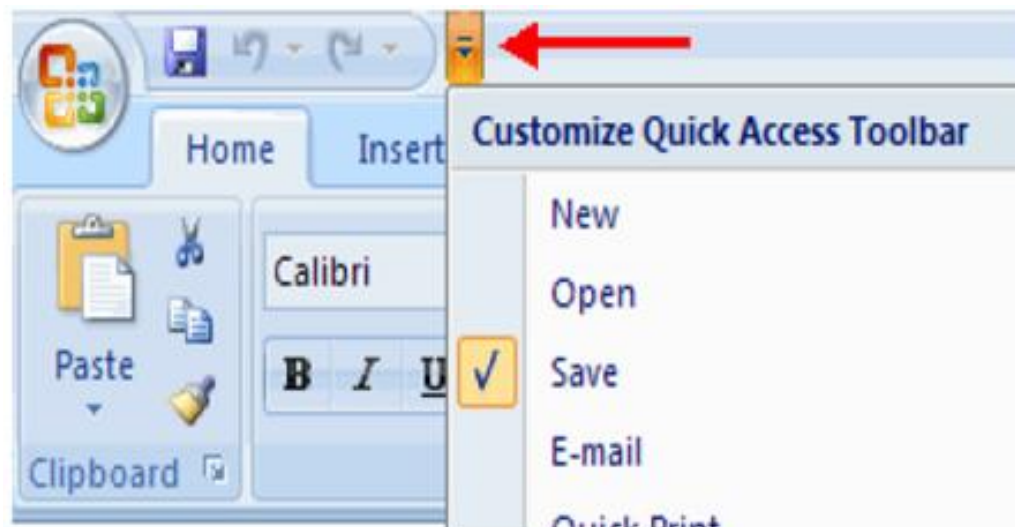

# MS PowerPoint 2007: Screen Layout
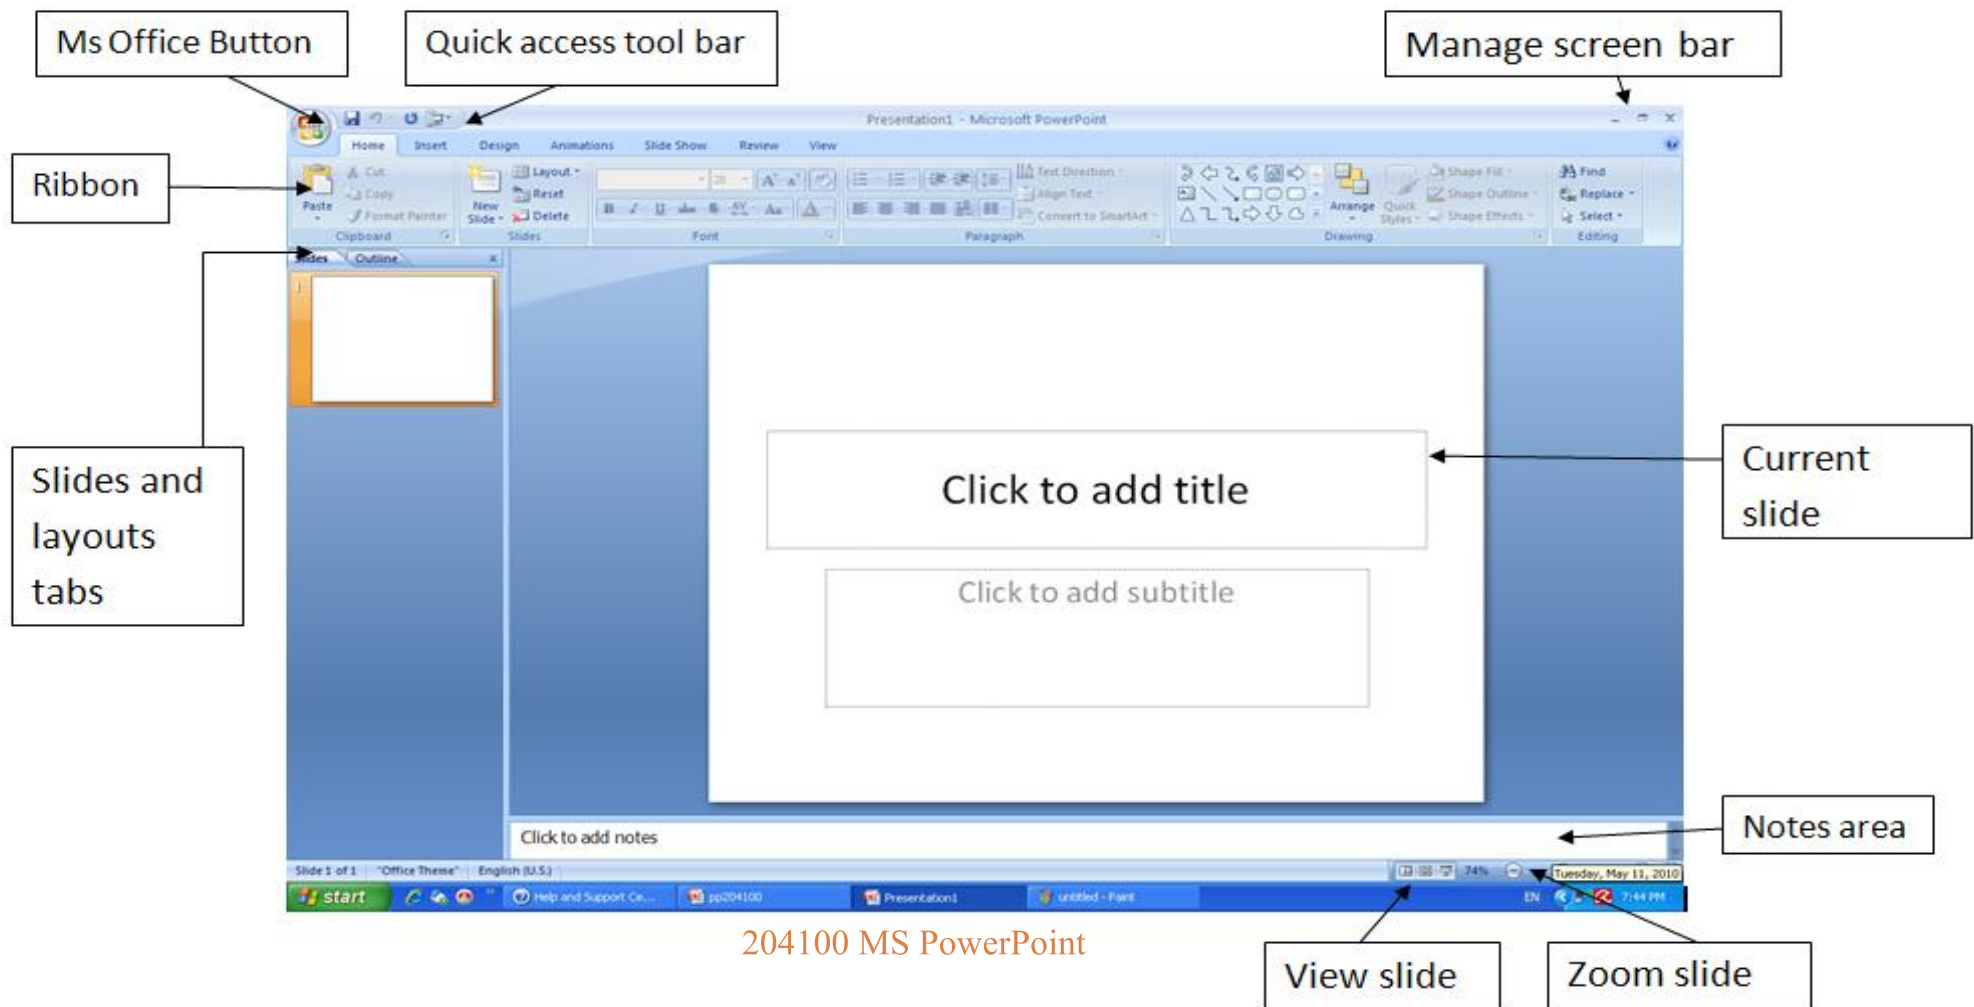

204100 MS PowerPoint

4

Screen Layout — Quick Access Toolbar

- Contains often-used commands.
  - You can press the downward arrow to customize the toolbar.

Screen Layout — The Ribbon (1)

Home: Clipboard, Slides, Fonts, Paragraph, Drawing, Editing
Insert: Tables, Illustrations, Links, Text, Media Clips
Design: Page Setup, Themes, Background
Animations: Preview, Animation, Transition to this slide
Slide Show: Start Slide Show, Setup, Monitor
Review: Proofing, Comments, Protect
View: Presentation Views, Show/Hide, Zoom, Color/Grayscale, Window, Macros

Screen Layout — The Ribbon (2)

- Extra tabs can appear when you select an object

Screen Layout — MS Office Button

- Open, Save, Print, Send

- New Presentation

  - You can start a new presentation from

    - Template

    - Themes

    - Blank Presentation

Templates

- A PowerPoint template is a pattern or blueprint of a

  slide or group of slides

Templates: Examples

|		
Agendas	Award certificates	Brochures
Budgets	Business cards	Calendars
Content slides	Contracts	Databases
Design slides	Diagrams	Envelopes
Expense reports	Fax sheets	Flyers
Forms	Gift certificates	Greeting cards
Inventories	Invitations	Invoices
Labels	Letters	Lists
Memos	Minutes	Newsletters
Plans	Planners	Postcards
Purchase orders	Receipts	Reports
Resumes	Schedules	Schedules
Statements	Stationary	Time sheets

Themes
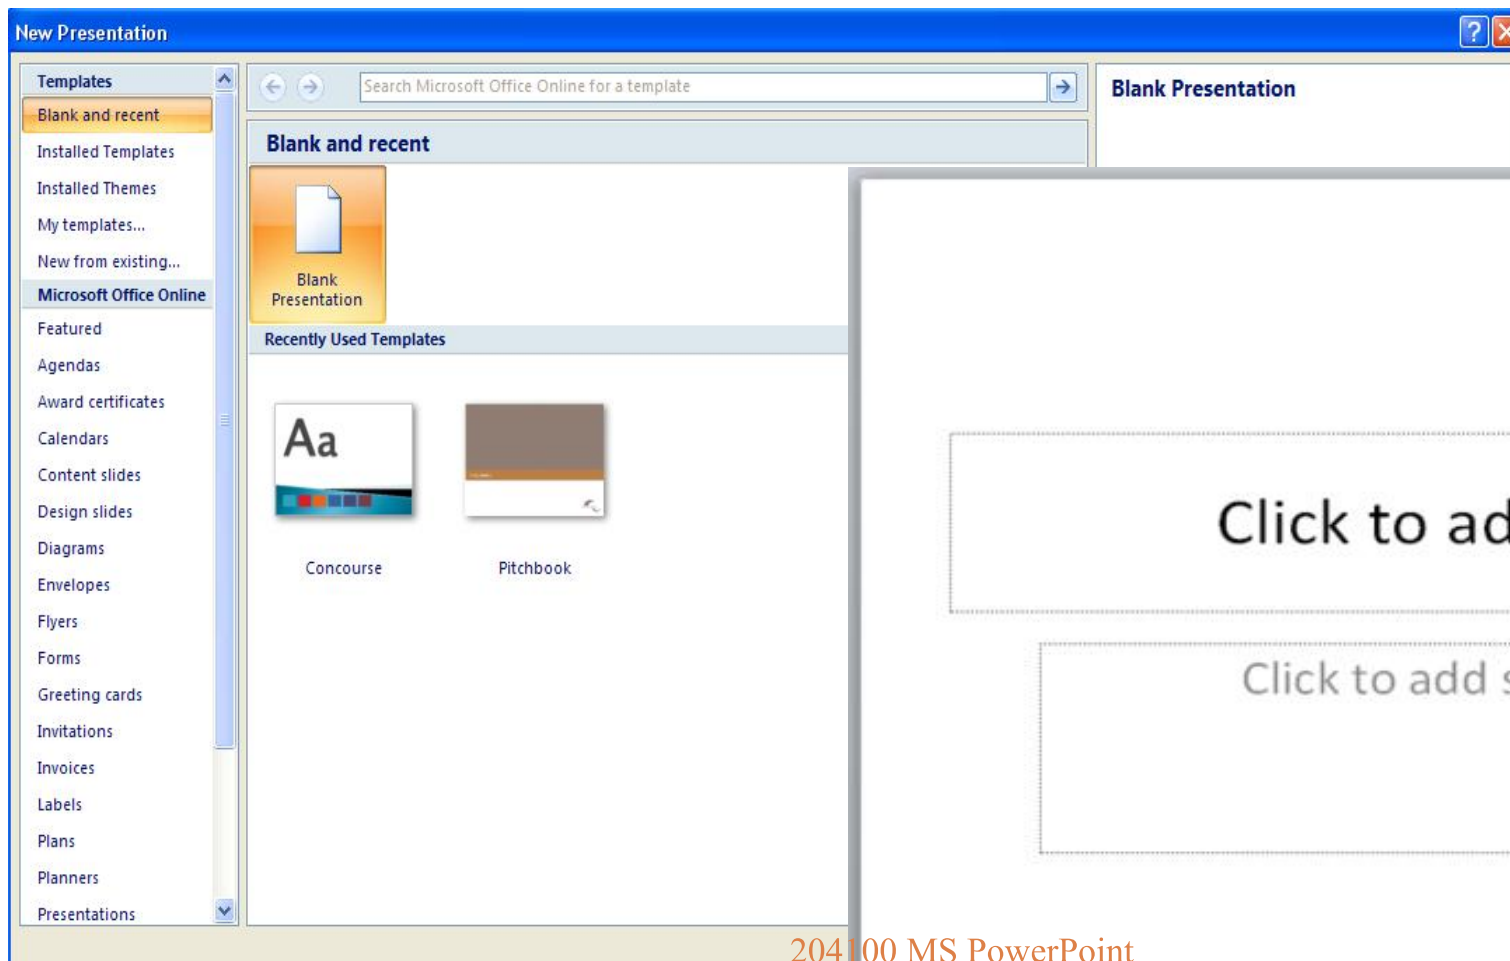

- To give your presentations a designer-quality look — a look that includes one or more slide layouts with coordinating colors, a matching background, fonts, and effects, you'll want to apply a theme.

Themes

Blank Presentation

13
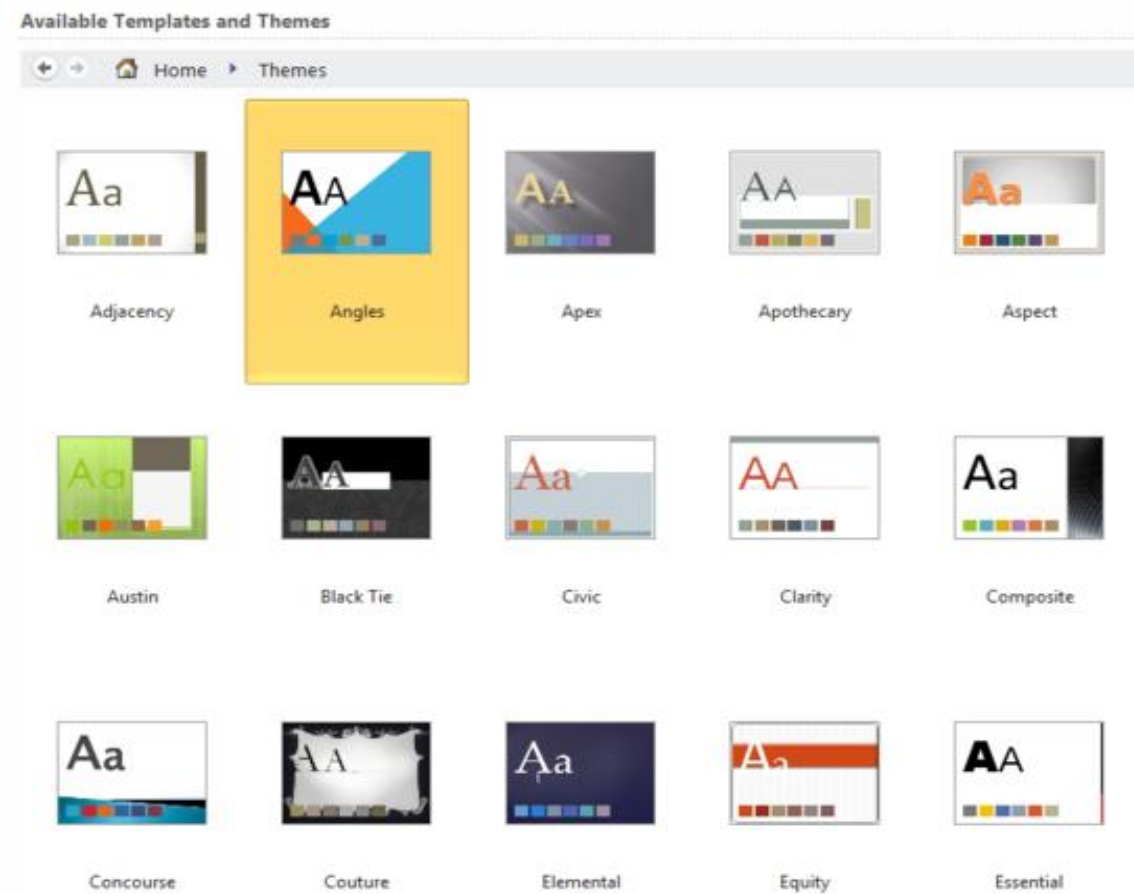

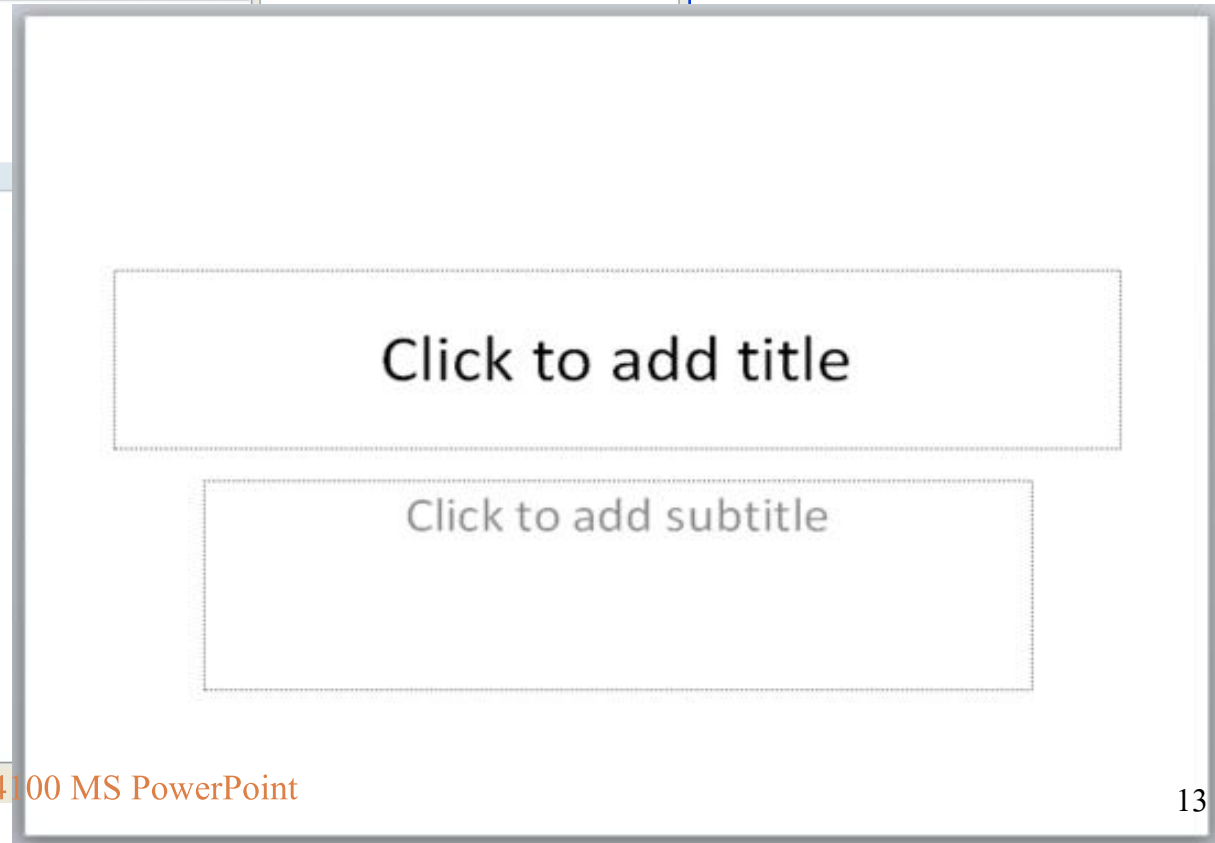

Open and save

- Open

  ➢   MS Office Button → Open → Select File

- Save

  ➢   MS Office Button → Save as → เลือก version

  Type in File Name → OK
Different views in PowerPoint

- Creating or editing

  ▫ Normal view

  ▫ Slide Sorter view

  ▫ Notes Page view

  ▫ Master views

Adding New Slide

- Add new slide : Home tap → New slide

- Or Press Ctrl-M

Different views in PowerPoint

- **Normal**
  - For editing and creating new slides

- **Slide Sorter**
  - See the ordering of slides

- **Note Page**
  - Add notes to the slides

- **Slide Show**
  - Show the presentation

# Slide Master
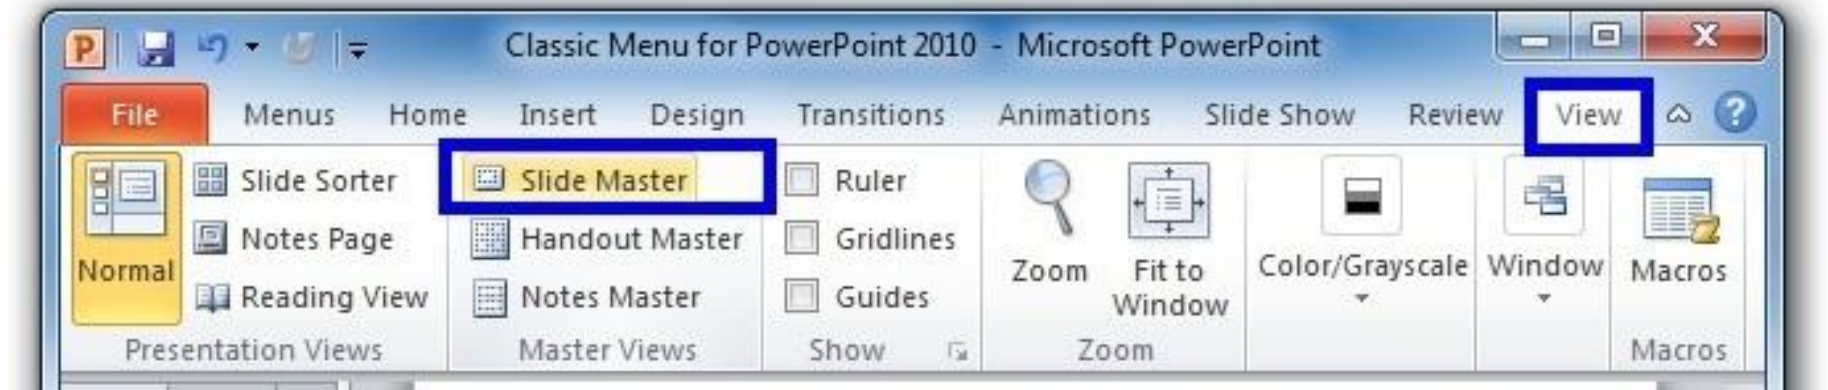

- Used for:
  - Make Changes to All Slides
  - Adding and Changing Layout

Note Master

To Close

Home Tab

- Slide Layout

- Change Font Typeface and Size

- Alignment & Text Direction

- Drawing

- Editing

Slide Layout
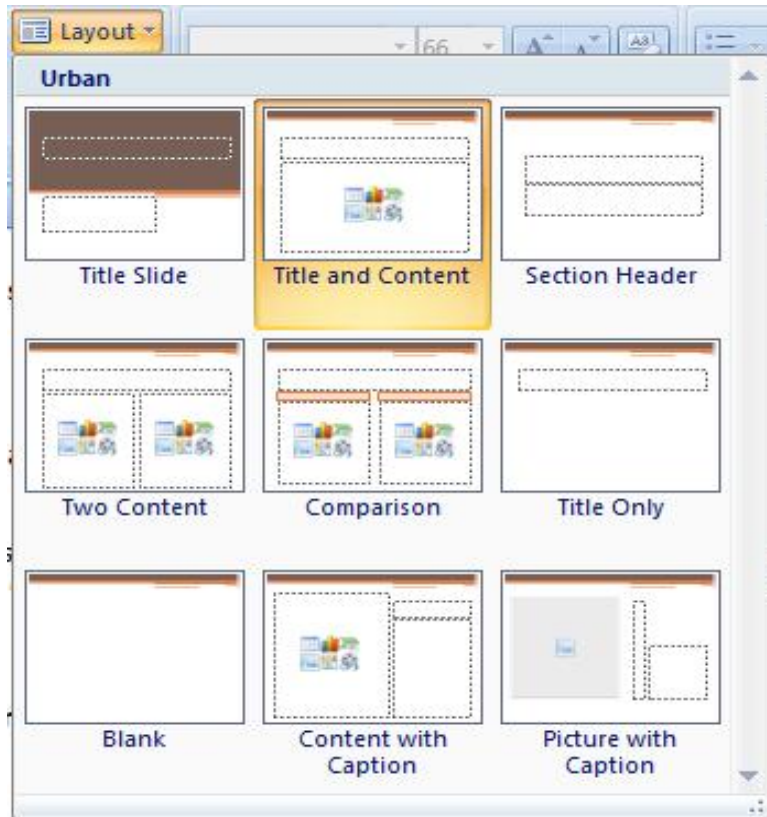

- On a slide, Define
  - Containers
  - Positioning
  - Format

- Can add your own on Slide Master

Change Font Typeface and Size
Change Text Color
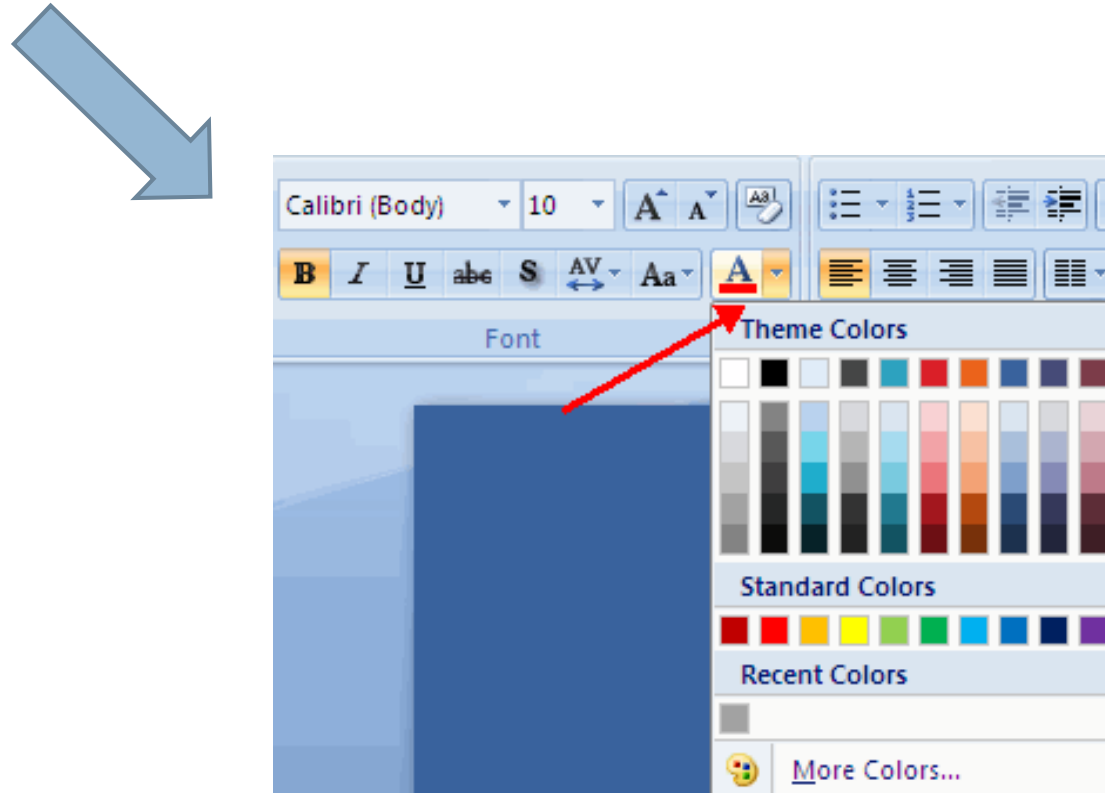

Alignment

- Home → alignment

  - Align Left

        - Center

            - Align Right

  - Justify
Indentation & Paragraphs

- Increase or Decrease Indentation to Lines of Text

- Action

  - Add the action to the object selected what will be happen when click or moving mouse cursor over it.

  - <u>Example</u>.

  - Select object $\longrightarrow$ Insert tab $\longrightarrow$ Action

Design Tab

- Page Setup & Slide Orientation
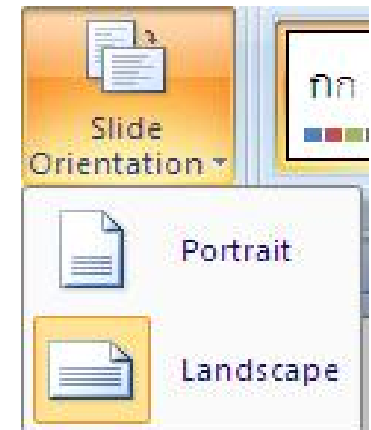

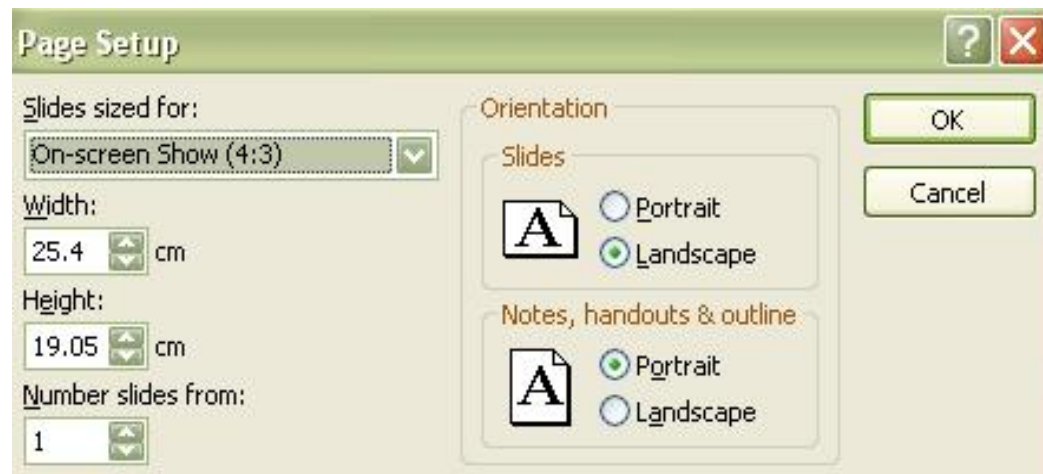

- Themes

- Background

Theme

- Theme

  - Design $\longrightarrow$ select theme

- To apply new colors to a theme:

  - Click the **Colors** drop down arrow

  - Choose a color set or click **Create New Theme Colors**

48
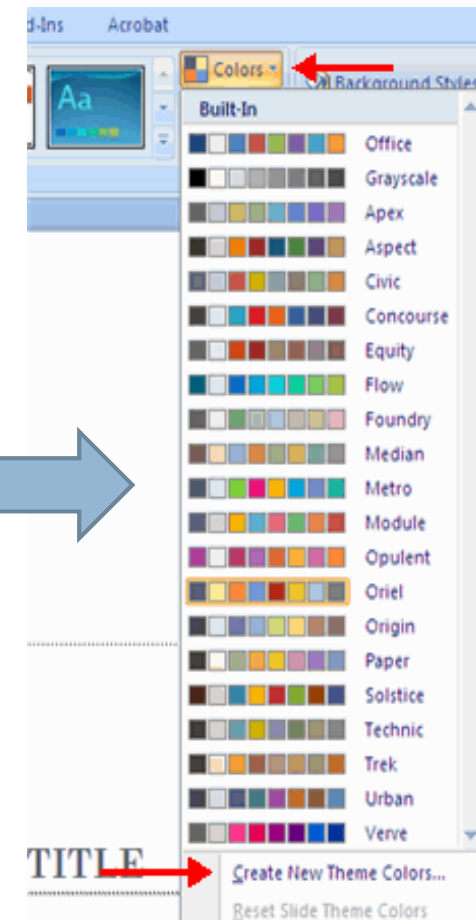

Background

- Background

  - Design $\longrightarrow$ Background styles
Slide Show
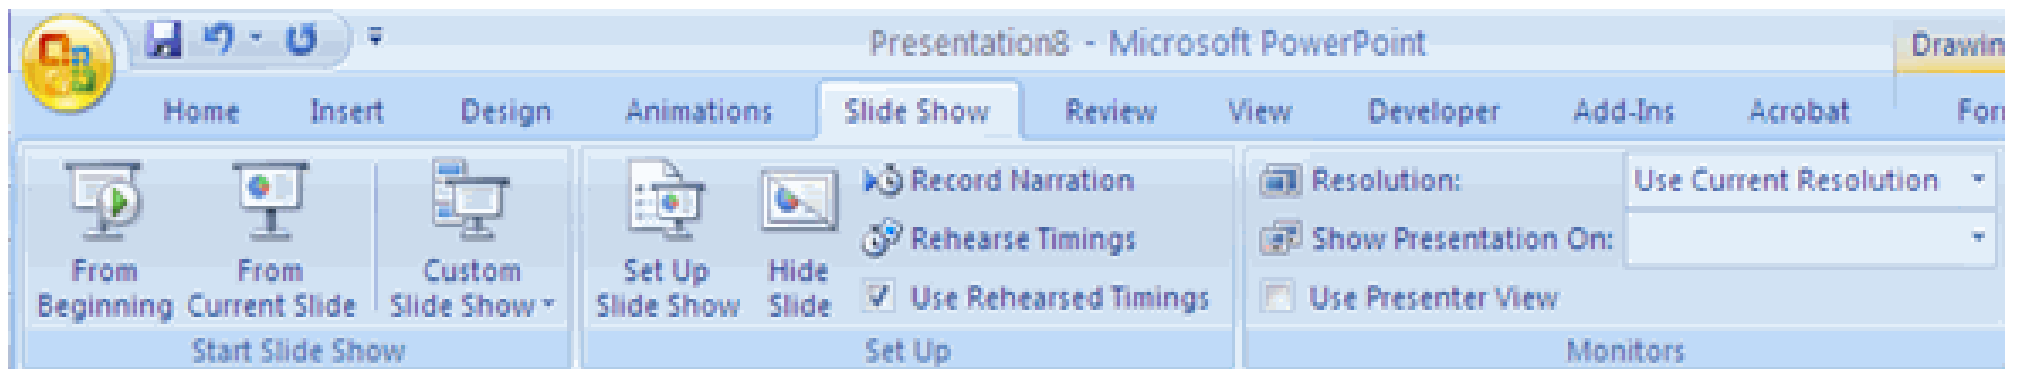

Slide Slow (cont.)

- Custom Slide Show
  - Show chosen slides and ordering
- Set Up (default) Slide Show
  - Show Type
  - Screen
  - Custom Order
- Hide (current) Slide
- Record Narration
- Rehearse Timing

Animations Tab

- Slide Transition

- Slide Animation

- Animation Preview

Slide Transition
- Slide transitions are the animation-like effects that occur in Slide Show view when you move from one slide to the next during an on-screen presentation.

Using Slide Transition

- Transition Effect

- Transition Sound

- Transition Speed

- Apply to All

Slide Animation

- Animation effects and sounds can add excitement to your presentations and help you emphasize key points while you deliver the slide show

- To Apply an Animation Effect
  - Select the object
  - Click the **Animations** tab on the Ribbon
  - Click **Custom Animation**
  - Click **Add Effect**
  - Choose the appropriate effect

Custom Animation

- Effect Options

  - Effects

  - Timing

- Ordering

Animation Preview

- To preview the animation on a slide:

  - Click the **Preview** button on the **Animations** tab
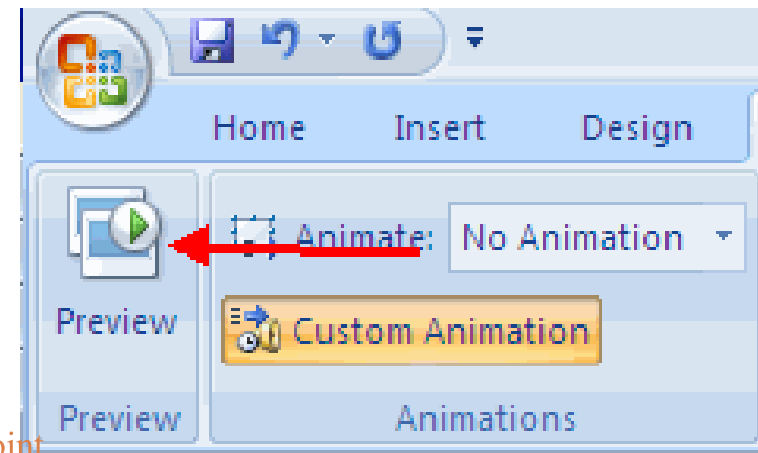

Printing Slides

- Handouts

- Notes pages

- Presentation

- Outline view

Printing Slides

Note Page

Outline View

Printing in Notes Pages

- Slides printed in **Notes Pages** will display the speaker's notes for making the presentation.
- These notes do not show on the screen during the presentation

These are my notes for this slide.

Printing in this view is a way for the speaker to write his own jot notes about his talk while this slide is on the screen.

The notes will print out when the slide is printed in **Notes Pages**. These notes do not show on the screen during the presentation.

1. **TITLE SLIDE**
   Printed in Color
2. **Printing Whole Slides**
   - Office Button > Print
   - Make sure that Slides is selected in the *Print what: box*
   - It is a good idea to Scale slide to fit paper
   - Choose to print in color, grayscale or pure black and white
3. **Printing Handouts**
   - Office Button > Print
   - Select Handouts from the *Print what:* section
   - Select number of slides to print
   - Select Scale to fit paper
   - Select Frame slides
4. **Printing Handouts for Notes**
   - Office Button > Print
   - Select Handouts
   - Select 3 slides per page
   - Select Scale to fit paper
   - Select Frame slides
5. **Printing in Notes Pages**
   - Slides printed in Notes Pages will display the speaker's notes for making the presentation.
   - These notes do not show on the screen during the presentation
6. **Printing in Outline View**
   - Outline View shows the text only on the slides
   - Outline View printouts are often used to summarize the presentation
   - Outline View printouts can be given out as handouts

Outline View of slides

Steps to Create a Presentation

1. Plan your content

   - Ask yourself:

     - What is the purpose of your presentation?

     - What message do you want to deliver?

   - Write up the outline with all the necessary topics

Steps to Create a Presentation

2. Add details to all topics

   □ Add important details to all topics.

   □ Remove any unnecessary details

   □ Too much graphic/details can be distracting

   □ One idea per slide.

Steps to Create a Presentation

3. Support the headline with graphic evidence

    ▫ support your points with graphic evidence.

    ▫ This can include photos, images, charts and diagrams.

Steps to Create a Presentation

4. Fine Tuning

- Fonts

- Transition

- Animation

- Too much can be distracting

Steps to Create a Presentation

5. Put details in the handouts

   ▫ The handouts should have the necessary details not included in the slides

   ▫ PowerPoint supports printing in different formats e.g. note pages, handouts

Making Presentation

- Topic: Facts about Cat

- Length: 1 page

Facts about Cats

- Scientific Name: *felis catus*

- Cats are carnivorous

- Young cats are called kitten

- Rub cat's belly at your own risk!

Facts about Cats – With Pictures!

- Scientific Name: *felis catus*

- Cats are carnivorous

- Young cats are called kitten

- Rub cat's belly at your own

risk!

Facts about Cats

- Scientific Name: *felis catus*

- Cats are carnivorous

- Young cats are called kitten

- Rub cat's belly at your own risk!
