# Web Authoring

### By Dr. Ratsameetip Wita

### Adapted to English by Prakarn Unachak

## Anatomy of a Website (2)

### Domain Name

- Human-readable, unique name that identifies an entity (such as website) on the Internet.
- Formed by the rules of Domain Name System (DNS)
- Example: <u>http://www.cs.science.cmu.ac.th/</u>

### Web Page

- Documents readable by web browser.
- Text/image/etc.

# Anatomy of a Website (3)

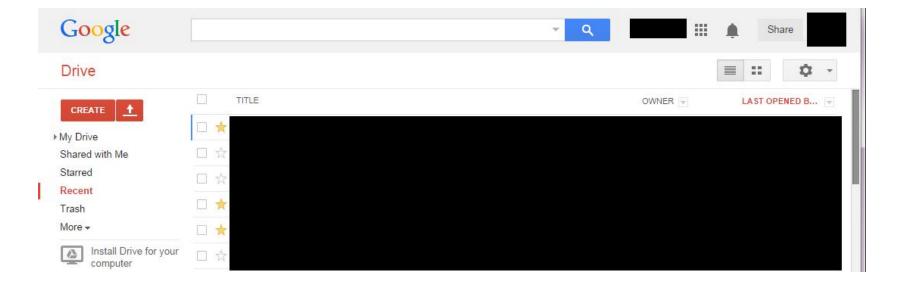

- Website
  - Set of related web pages served from a single domain
  - Hosted on the same (set of) server(s)
- Home Page
  - Usually the first page you'll see on a website.
- Site map
  - List of pages on a website, and how they are linked together

## Static vs. Dynamic Web Pages

- Static Web Page
  - File delivered as stored
  - Content does not changed unless the stored file changes
- Dynamic Web Page
  - Generated by web application
  - Content changes based on user's interaction (and other things)

## Dynamic Web Page Example

### Contents change on user interaction.

6

## Dynamic Web Page Example (2)

### Google Doodles – Time/Location

Thai Mother's Day 2014

Lunar New Year 2010

## Website Design

## • Website Structure Design

- Outline
- Content
- Layout
- Website Interface Design
- Color Theme
- Font
- Image and Multimedia

# Website structure design

## Outline

- Purpose & Audience
  - What is this website for?
  - Who is this website for?
    - What do they know? What do they want? How to communicate?
- Focus
  - Clear, not too complicated
- Organization
  - Group related contents together

## **Categories of Website**

- Corporate
  - Details of organization
  - Contacts
- Promotional/E-Commerce
  - Ads
  - How to order
  - Product details

# Categories of Website (2)

- Informational
  - Articles
  - Course materials
  - wiki
- Personal
  - Album
  - Blog
  - Portfolio

## Content

- Most important parts of the website
- Factors to consider
  - Accuracy
    - Credibility/Sourcing
    - Error-checking both contents and spelling
  - Timeliness
    - Is the information up-to-date?
  - Coverage
    - Does it fit the goal of the website?

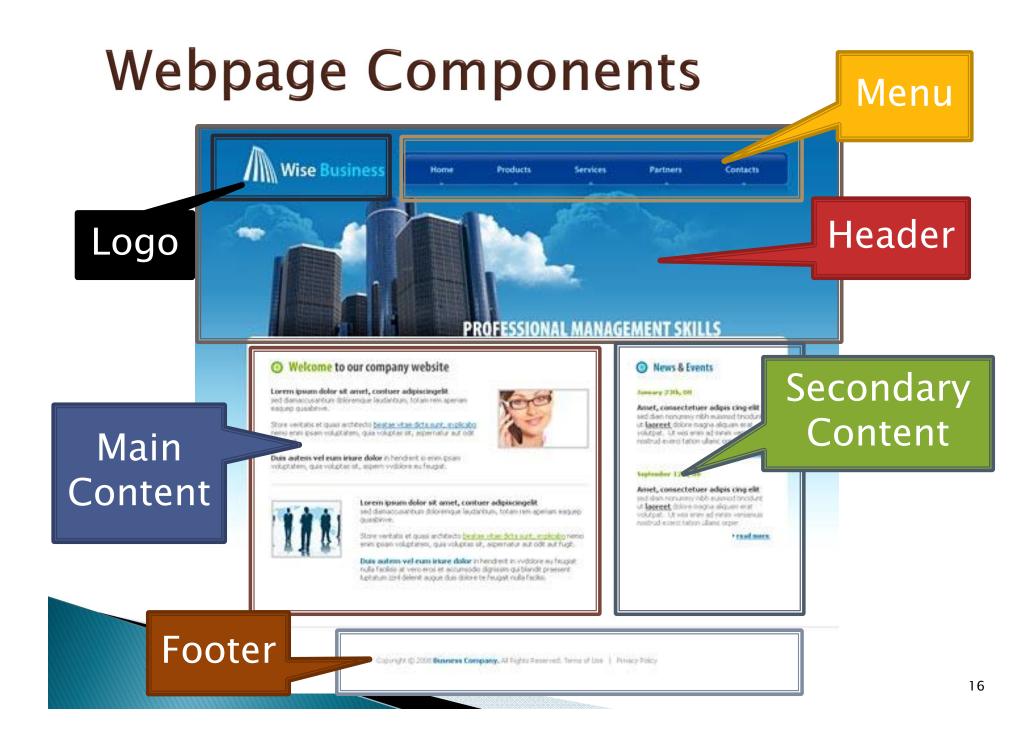

## Layout

Components of a Webpage

- Header
  - About website itself
  - Logo/Name/Slogan
- Highlight/Banner
  - Show important details
    - News/Promotions
  - Not necessary on every pages

# Layout (2)

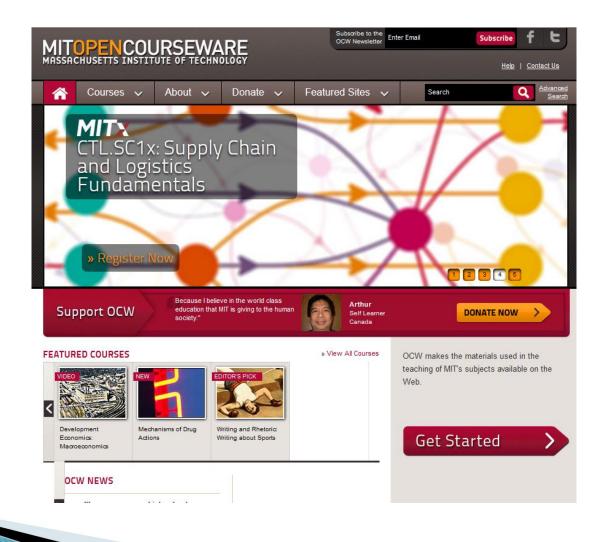

- (Main/Sub) Menu
  - Show links to other web pages (mostly) of the same website
  - Main menu can be part of the header
  - Should be the same throughout the website
- Content
  - Main details of that web page
- Footer
  - Contacts/Copyright/Credits
  - Indicate the page ends

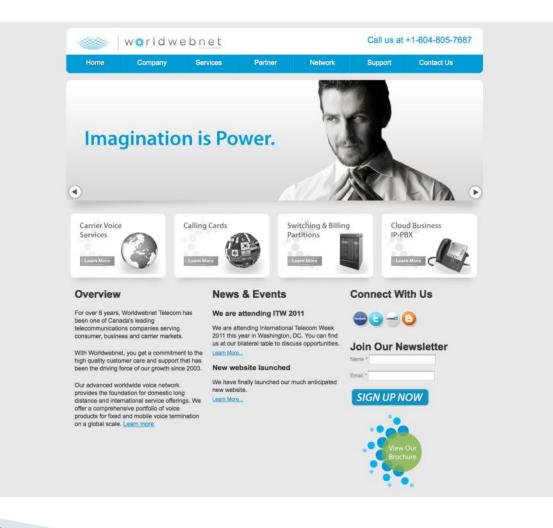

## Layout (2)

- Similar layouts for the same website
  - For familiarity
- Don't lay content too dense
- Distinct topic of content
- Display important contents on the home page
  - PR
  - News updates

## Example – Informational Website

## Example - Corporate Website

## Responsive Web Design

Image by Guillermo Garcia-Mont

 Design for webpages to display on different devices (screen sizes) with automatic adjustment
HTML5, CSS

# Website Interface Design

## **Color Theme**

- Appropriate for website content and purpose
- Fit to the organization
- Different colors have different feels Warm and Cool Colors
  - Warm and Cool Colors
    - Warm is energetic, stimulating
    - Cool is calming, relaxing
- Color wheel
  - Used for picking the right color

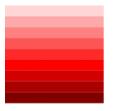

COOL

## **Examples of Color Theme**

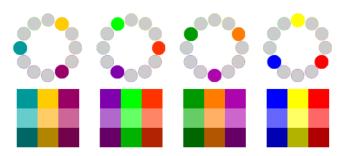

- Monochromatic Colors
  - One hue
  - Different "brightness"
- Analogous Colors
  - Colors are next to each other in the color wheel
- Triad Colors
  - Three colors are evenly spaced in the color wheel

### **Monochromatic Colors**

Analogous Colors

## **Monochromatic Web Page**

### www.3coasts.com

## Web Page with Analogous Colors

## Fonts

- Appropriate Font to Contents
  - Official/ Business/ Hobby/ Personal, etc.
- Appropriate Size
- Easy-to-Read Colors
  - Both font and background

Which one

is more

to read?

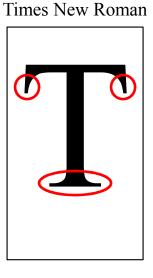

Moderate effects

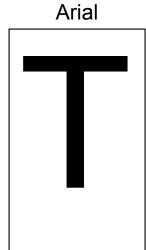

Sans Serif Greyhound Script Sans Serif Greyhound Script BOSIS Alinea Sans TF FOREVER Franklin Gothic Excd Gill Sans Lucida Sans SHOWCARD COTHIC Rotis Sans Stellar Delta Vellvé

# Fonts (2)

### Serif

- Small lines at the end of a stroke
- Used in official documents
- Mostly for headers
- Examples: Time New Roman, Georgia, Book Antiqua
- San Serif
  - No serif
  - More modern
  - (Usually) Easy to read, appropriate for contents
  - Examples: Arial, Tahoma, Calibri

## Fonts (3)

### Script

- Based on handwriting
- Harder to read
- Used in casual context
- Mostly as headers
- Examples:

Uladimir Script, Freestyle Script

## Image and Multimedia

- Related to contents
- Appropriate Size
  - Not too big nor too small
- Moderate animations/effects
- Background music:
  - Appropriate Volume
  - Should include on/off button
  - Don't start automatically

## Web Authoring Tools

- Modern tools are WYSIWYG (What You See Is What You Get)
- Offline) Software Need to install first
  - Adobe Dreamweaver
  - Kompozer
  - Microsoft Frontpage
- Online service
  - Google Site
  - Wordpress
  - Weebly

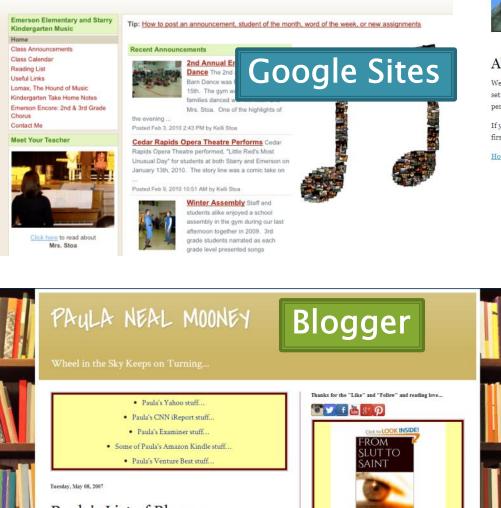

## Web Publishing Services

- Provide:
  - Web Authoring Tools
    - WYSIWYG
    - Creating/Editing Tools
    - Themes
  - Web Hosting
    - Hosting and Domain name
- Can be free, or not

### About

Welcome to the Kosmos san set up so that you can see ho personal website and/or blo Wordpress

If you plan to use your WordPress site as a personal site, you should consider first disabling comments.

How to disable comments

This is the sidebar. Depending on the ne you choose, you can change the that its on or get rid of it gether. WordPress allows you to add gets here. We have added the ter and Facebook widgets for nos, but there are many more to choose from. For more on using social media like Facebook as a teacher, check out our podcast with Dr. Stephen Horwitz on Social Media for Academics on Kosmos Online

# Social media

204100 Information Technology and Modern Life I : Web Authoring Tools

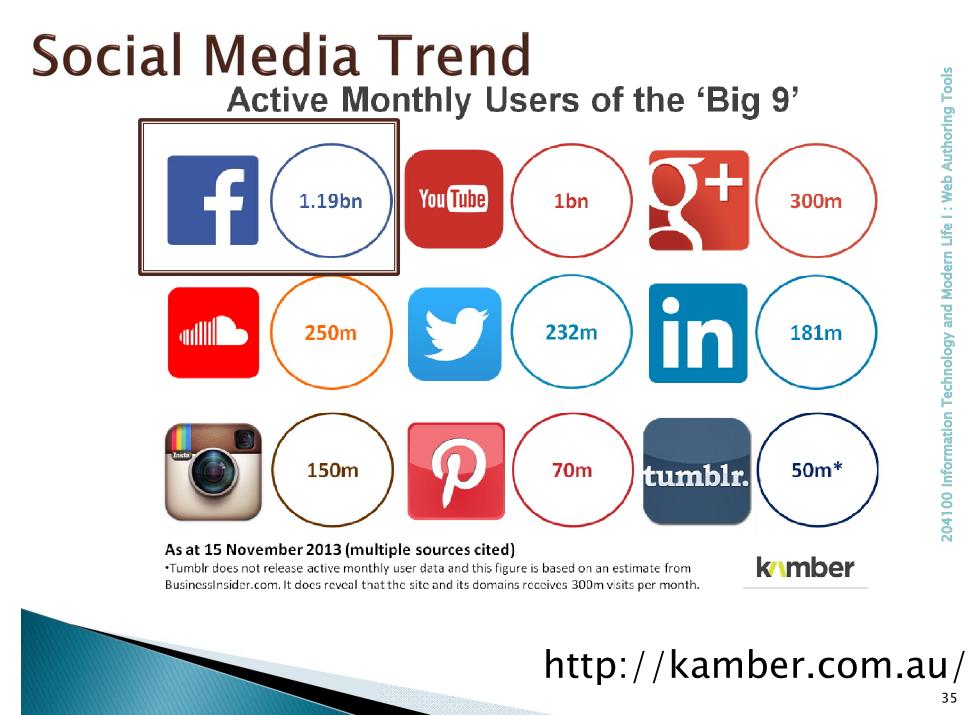

## Website vs. Social Media

Website

- Easy to Organize
- Easy to Search
- Good for presenting information

Social Media

- Emphasis on
  - Communication
  - Announcement
  - Ads
- Harder to Search
- Harder to Organize
- Good for PR, Announcement

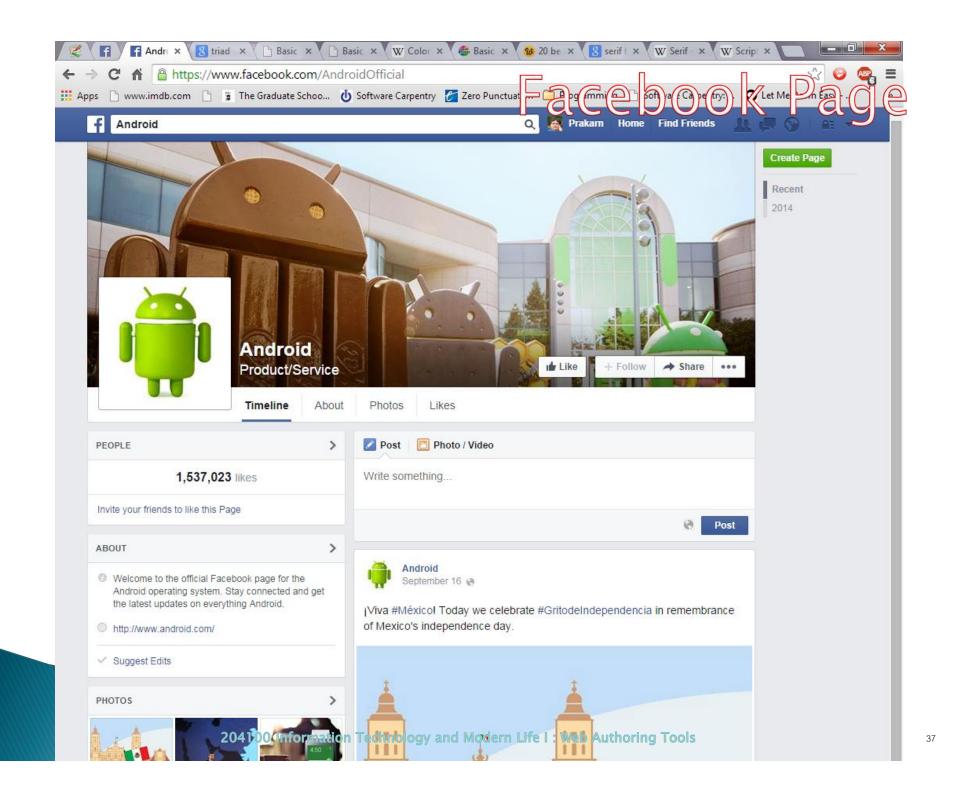

35

## Facebook Page and Group

- Facebook Profile
  - Show user's personal details
  - Can be configured as needed
    - What is included
    - Who can access it
- Facebook Page
  - Similar to Facebook profile
  - But for business, celebrities or organization
  - Always public
  - Can be generated automatically

- Facebook Group
  - Private spaces for people to connect and share information
  - Group Admin can adjust:
    - Privacy Setting
      - Public, Closed, Secret
    - Membership option
      - Invite only, ask for join, anyone can join

## Facebook Group

- Public Group
- Admin can pin a post
  - Post remains on top of the list
  - Easy for members to notice
